Inspiring Hope and Resourcing Transformation in Schools

At Odyssey Leadership Academy, we believe that schools should be places of wonder and imagination, creativity and innovation, flourishing and hope for every student!

Our award winning model of education completely reimagines what schooling can and should be!

We have earned numerous awards and global recognition for our innovative approach to schooling...and we want to help you do the same!

The goal of Odyssey Leadership Academy has always been far more than starting a school.

Our goal is to start conversations related to reimagining the very fabric of what education and schooling can and should be.

We exist to help schools and educators tell a better story for their students, families, faculty, and community.

Our larger work is to come alongside educators, school leaders, teachers, and faculty to inspire hope and resource transformation that brings purpose, passion, meaning, and transformation to you!

As teachers, administrators, and school leaders, you know that school can be more innovative, more engaging, and more rewarding for everyone.

The question we are often asked is, “But where do I start”?

As an award winning, internationally recognized pioneer in transforming schools, we want to help!

If you are:

- a pioneering school wanting to foster deeper opportunities for transformation at your particular site
- a visionary school leader looking to foster change on behalf of your learning community
- a teacher looking for inspiration to transform your classroom
- an Edupreneur wanting to start something new in education

We are here to help!

Our professional development and consulting is backed by best research in neuroscience, psychology, and pedagogical practices, and is designed to support and affirm educators in their journey to foster more engaging, creative, transformative learning environments.

The Odyssey Difference

At Odyssey Leadership Academy, our award winning model is centered around human flourishing, innovation, and 21st century learning

We are a place that provides meaning and purpose right up front, a place that invites students to use their creativity and innovation today.

We acknowledge that there is a path for those who want to "do well on tests" and "get good grades"; however, we intentionally charted a different path: a path for those who want to change the world!

We believe there should be a path for those who want to put their creativity, their talent, their intellect, and their drive to work today, helping to find solutions to the most pressing problems and imaginative possibilities of our time.

Our model includes:

- Learner centered courses
- Hands on, project based classrooms
- Daily Mentoring
- Student voice
- Mastery Program
- Community Partnerships
- Celebrations of Learning
- Faculty Design Thinking

& more!!!

Professional Development for Schools and Educators

ReimaginED Visits

September 28-29 & March 4-5

Two days in person on site

Location: OLA Campus Oklahoma City

Cost: \$75 per person / \$300 for groups of 5 or more

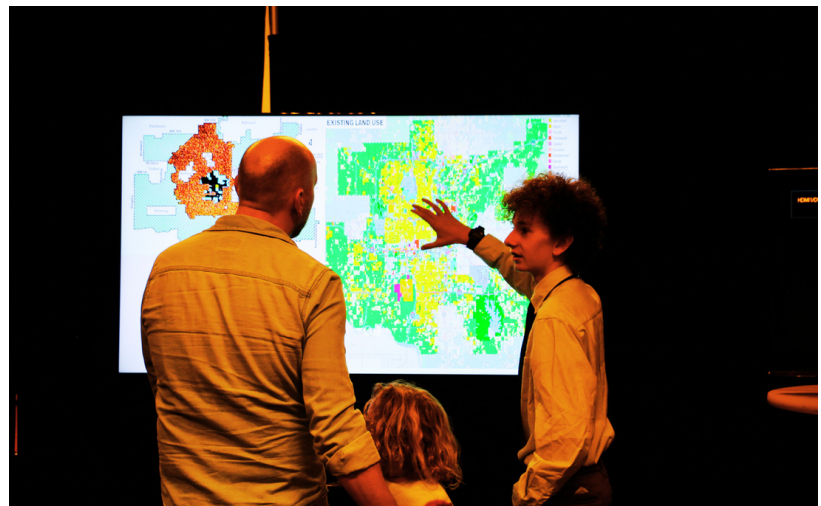

This is your chance to see what reimagined education looks like first hand! Spend the mornings observing Odyssey's innovative, learner centered courses and your afternoon's talking with our award winning Lead Team! Then cap the experience off engaging in our Celebrations of Learning student showcase!

Immersive OLA Site Visit

One full day of your choosing

Location: OLA Campus
Oklahoma City

Cost: \$75 per person

An Immersive Site Visit allows you to come see the magic of OLA on a day of your choosing. Your visit allows you the opportunity to sit in on classes and talk one on one with the award winning OLA Lead Team member of your choice: School Leadership, STEM, Humanities, Academic Development, Mentoring, Educational Entrepreneurship
